

W6B Wi-Fi 6E Gaming Acceleration Kit

6GHz 802.11ax Wi-Fi 6E

2.5Gbps Ethernet port

Wired speeds without wires

PRODUCT OVERVIEW

The ARRIS SURFboard Thruster Gaming Acceleration Kit brings gamers Ethernet speed and reliability without the hassle of running wires, for optimal gaming performance anywhere in the home. The kit includes two bridges that virtually eliminate lag and interference from other devices by creating a dedicated Wi-Fi 6E connection between the router and gaming device.

FEATURES

- Single band 6GHz 802.11ax W-Fi 6E radio with speed up to 4.8Gbps¹
- 2.5Gbps Ethernet port for Multi-Gig network connection
- Quad-core ARM Cortex A53 processor
- Compatible with any gaming console or devices equipped with an Ethernet port
- Includes two (2) devices – Main Access Point and Satellite unit – pre-paired out of the box
- One (1) year limited warranty

PRODUCT HIGHLIGHTS

Free Yourself From Wires

- Thanks to a dedicated 6 GHz band, you decide when the game stops, not your internet connection
- Ethernet speed and reliability anywhere in the home, without wires
- Experience video games the way they were meant to be played: with blazing Wi-Fi 6E speeds without interruptions or disconnections
- Compatible with any internet service, existing router and gaming devices with Ethernet ports

Easy to Setup and Use

- Pre-paired from the factory, simple plug & play installation in minutes
- Front panel status LED indicate connectivity and network health state
- SURFboard Central mobile app for easy device management

Fast and Secure

- 6GHz Wi-Fi 6E with wireless speeds up to 4.8Gbps
- 2.5Gbps Ethernet port for multi-gig network speeds
- WPA3-Personal wireless security
